“ Our Goal ”

The objective of this activity was to teach youth trainees the fundamentals of establishing and operating a business so that they could apply these concepts to their own ideas for social businesses. The young trainees enhanced their knowledge and comprehension of essential business operations, comprehended how value is created and how an idea can be transformed into a startup, and are prepared to apply this knowledge to Virtual Enterprises models. The youth workers attended the same course, and guided the youth groups that were created, and assisted the trainees in better comprehending the course material.
